TAGBOARD						
1 Mission****	D-21	Photo	1-31 Jan	S. China	USIB	28 Jan 66

\* - A recurring bank against total requirements. If overflights of China continue to be stood down, the following schedule is proposed: 4 Photo/Elint missions to remain 20 miles off the China Mainland.

\*\* - The SR-71 is contingent upon validated requirements and results of recent satellite missions. The mission will be planned to cover priority targets not observed during the most recent satellite mission over the area.

\*\*\* - Approximately 10 OLD HEAD sorties will be required to monitor ongoing Soviet activities at Cienfuegos and to accomplish the validated periodic coverage of Cuba. Five additional sorties are requested for use against quick-reaction/extraordinary requirements which may arise during the month.

\*\*\*\* - The TAGBOARD mission over South China is proposed to meet high-priority intelligence collection requirements, if there are no successful flights executed in Dec. In the event the Jan mission is not flown prior to launch of the next [redacted], the TAGBOARD mission will be held in abeyance pending evaluation of the satellite coverage.
